

MASSIE JURY BEGINS THIRD DAY OF DELIBERATION

MYSTERY RADIO MESSAGE STIRS LINDBERGH CASE

Detroit Gangster Is Asked To Contact New York Attorney

Hopewell, N. J., April 29.—(AP)—Emissaries continued to labor in secret today to get the kidnapped son of Colonel Charles A. Lindbergh back, but concrete developments were scarce.

Two Norfolk intermediaries were absent on unexplained missions last night while a third, Rear Admiral Guy H. Burroughs, said at Norfolk:

"I had a long distance telephone talk with Col. Lindbergh at Hopewell tonight."

He and his two colleagues, J. H. Curtis, boat builder, and Dean H. Dobson-Peacock, have said they have cleared away a number of obstacles between them and their objective, which is return of the baby.

Message For Gangster

In New York a radio station broadcast a message, apparently intended for Harry Fleischer, Detroit "purple" gangster sought in connection with the kidnapping.

"Harry Fleischer—Dear Harry: Connect with me immediately through my attorney, Henry A. Utterhart, 36 West 44th Street. Do it through a third party. No danger of a tipoff I am the party who was the main mug of the Ohio joint where you and big Mike grifted. Remember the supper you and the Turk gave me?"

Utterhart said he was acting as "liaison officer in the matter at the request of a friend, a lawyer." He said he had not been approached directly by Colonel Lindbergh but that the lawyer who asked him to act did so with the consent "of all interested parties."

GROUNDS FOR HOPE

According to statistics covering kidnapping cases in this country during the last half century, Colonel and Mrs. Charles A. Lindbergh still have grounds for hope that their child will be returned to them safely.

For, although the Lindbergh baby was stolen March 1, and today will have been missing 58 days police records show that in the majority of previous cases, when the kidnappers were not almost immediately apprehended, recoveries were not effected for several weeks.

The longest period that any child was held captive before being returned to the parents was 130 days. That was the Coughlin kidnapping case, in 1920, at Norristown, Pa. In 1928, 11-year-old Richard Grant was stolen from his home in Los Angeles and was not found for two months and four days. Then he was discovered living in a shack near Roswell, New Mexico, with an abductor whom he had learned to call "dad."

Here is a list of the 25 most famous kidnappings, together with the time involved in their solution:

Charlie Ross, Germantown, Pa., 1874, never found.

Marion Clark, New York City, 1899, found in nine days.

Edward A. Cudahy, Omaha, Neb., 1907, returned in one day.

Mariano Palermo, 1907, returned in 41 days.

Willie Whittle, Sharon, Pa., 1909, returned in four days.

Giuseppe Longo, Brooklyn, 1910, returned in 22 days.

Michael Rizzo, Brooklyn, 1910, found in 21 days.

Salvatore Buffa, Manhattan, 1911, returned in 47 days.

John Buzino, Brooklyn, 1911, returned in 39 days.

Jimmy Glass, Greenley, Pa., 1915 found dead, 8 years later.

Blakely Coughlin, Norristown, 1920, returned in 120 days.

Joe Varotto, Manhattan, 1921, found drowned 19 days.

Mildred Voth, New York, 1922, returned in five days.

Lillian McKenzie, New York, 1923, identified 2 years later.

Irving Pickelney, Manhattan, 1923, found slain 24 days later.

Billy Gaffney, New York, 1927, never found.

Marian Parker, Los Angeles, 1927, returned slain, two days later.

Grace Budd, Manhattan, 1928, never found.

Billy Ranieri, Chicago, 1928, re-Joseph Strela, New York, 1928 turned in 13 days.

Killer confessed in 20 days.

Richard Grant, Los Angeles, 1928 returned in 56 days.

Melvin Horst, Marshallville, O., 1928, never found.

Jackie Thompson, Detroit, 1929, returned in 28 days.

Caroline Adler, Mexico City, 1932, returned in 11 days.

James De Jute, Niles, O., 1932, found in two days.

Silvis Shops To Work A Fortnight

Moline, Ill., April 29.—(AP)—The Silvis shops of the Rock Island Railroad, adjacent to Moline, will be reopened Monday, May 2, for two weeks of five days each, according to P. J. Colligan, Superintendent. About 1,000 men will be employed.

Shanghai lies in about the same latitude as Mobile, Ala.

Rough Roads Saved Boy From Operation On Ear

West Brooklyn — Here's one for the book.

Bobbie Boyle, little son of Mr. and Mrs. James Boyle, several days ago while attending St. Mary's parochial school, applied a pencil to his ear, as boys will, in an effort to relieve ear-ache.

When he pulled the pencil out, the eraser remained inside the ear and he found it impossible to remove it. When he later reported the incident to his parents, they rushed him to the office of a local doctor who likewise was unable to remove the rubber and advised that the boy be taken to a specialist in Dixon.

The roads are rough in this district and while the lad sat in the rear seat of an automobile the severe jolting of the car as it passed over bumps and depressions in the road worked the eraser loose and it fell out on the seat of the car.

GRIM DRAMA IS ENACTED TODAY IN PENN. PRISON

Guards Had To Over-power Negro to Put Him To Death

Eddyville, Ky., April 29.—(AP)—The grimdest drama ever enacted within the walls of Western State penitentiary marked the execution early today of three Negroes in the electric chair. Only after a guard had been stabbed and tear gas bombs had been brought into use to subdue the third of the trio were the executions completed.

After resisting for an hour and a half efforts of officers to lead him from his cell in death row to the small room in which the electric chair is located, Walter Holmes, 31, of Chicago, surrendered and followed his two companions in death.

The other two men, A. B. Cooksey, 23, of Madisonville, Ky., and Charles Rodgers, 23, of Chicago, went to their deaths peacefully.

Brandishing a piece of pipe torn from the plumbing of the cell, Holmes defied guards until tear gas bombs were tossed in. Yesterday he stabbed Claude Ramey, a guard, with a knife made from a water bucket handle.

Cooksey was convicted of the murder of Police Chief John H. Ashby of Madisonville. Rodgers and Holmes were sentenced for the fatal shooting of Tom Tillery, Elizabethtown farmer, in April 1931.

Savanna Man Held By Govt. Officers

Rock Island, Ill., April 29.—(AP)—

Earl O. Browning, arrested by public authorities in Savanna, Ill., was brought here yesterday charged with writing and sending through the mails libelous and obscene missives.

He was arraigned before U. S. Commissioner William R. Moore in Moline and bound over to the federal grand jury. A federal officer was to take him to Peoria today pending investigation of his case.

Inspectors expressed the belief that Browning's mind is affected. He was once a telegraph operator for a railroad at Savanna, Ill.

OBJECTIVES OF TAXPAYERS ASSN. WERE OUTLINED

HABACKER WILL ACT AS MAYOR OF CITY MAY 7

High School Pupils Elected Officers This Morning

About 250 Heard Direct- or Castetter Here Thursday P. M.

L. L. Castetter of Donovan, Ill., publicity director of the Illinois Taxpayers Association addressed a meeting held at the court house square yesterday afternoon, which was attended by about 250 men and women from this section. He explained the objects of the organization which has been launched in Lee county. The association, he explained is non-partisan and a non-profit organization. In outlining its objects, the speaker said:

"The first and primary object is to reduce taxes by aiding in the reduction of public expenditures. Second, to act as a co-operative medium of exchange between public officials and the people they represent, thereby letting officials know what people wish done, and in turn the people can learn what is being done. Third, to combat and offset propaganda against public officials. The Illinois Taxpayers Association is a non-partisan organization of taxpayers formed for public welfare, which has for its motto: the most good for the greatest number."

"Its membership comprises professional men, business men, farmers, tradesmen, laborers, home owners, tenants and corporations. All have a voice, which in turn is the voice of the people. Our country is a democracy; a government of the people, by the people and for the people, and the people have a right to be heard.

Stressed Public Welfare

"In periods of economic distress public welfare is of vital importance, and those who insist on serving selfish motives only add to the burden, and retard our return to economic progress. In offering resistance to movements for public welfare one may be listed a public enemy."

After resisting for an hour and a half efforts of officers to lead him from his cell in death row to the small room in which the electric chair is located, Walter Holmes, 31, of Chicago, surrendered and followed his two companions in death.

The other two men, A. B. Cooksey, 23, of Madisonville, Ky., and Charles Rodgers, 23, of Chicago, went to their deaths peacefully.

Brandishing a piece of pipe torn from the plumbing of the cell, Holmes defied guards until tear gas bombs were tossed in. Yesterday he stabbed Claude Ramey, a guard, with a knife made from a water bucket handle.

Cooksey was convicted of the murder of Police Chief John H. Ashby of Madisonville. Rodgers and Holmes were sentenced for the fatal shooting of Tom Tillery, Elizabethtown farmer, in April 1931.

"We want the necessary functions of government and public improvements, also the best schools we can afford, but not at expense of bankruptcy."

Policies Discussed

"In order to effect reductions in our taxes, cooperation is necessary between the taxpayers and the public officials. To get this cooperation, Tax payers associations are being formed. Public meetings are held and questions of public policy are being discussed and public sentiment is determined, giving public officials an opportunity to know the will of the people they represent and a better opportunity to fulfill the duties of their office."

"This is not an experimental movement. Many states have such organizations, and there are many counties in Illinois organized. There will soon be a National Association which will better enable us to have a part in our Federal Government."

"On an average, about three-fourths of our taxes are within the township. The county board controls the county rate, and the state rate is controlled at Springfield. About 40 per cent of all taxes are for schools, and about 25 per cent for roads.

"In the townships, committees of the association meet with the various taxing bodies when the budget is being made for their levy, and inform the officials what reductions and changes the people wish made, it having been previously determined at public meetings.

Officials As Servants

"Public officials are persuaded to be our servants instead of masters, and the instruments through which the people can get what they wish to be done. The will of the people is made known by the committees and the officials are relieved of the burden being all upon them. They are only carrying out the wishes of the people they are serving. Nearly every public official welcomes this Association, once he understands it."

The County association acts as a central directing unit to keep the townships posted and co-ordinated in their efforts, so that all can be working together on the same thing at the same time. It also serves with county officials in an effort to reduce taxation. In addition its acts as a publicity and educational center for its members.

The State Association takes care of the legislation to bring about a more equal distribution of taxation, and reducing state expenditures. It is also a central head for the numerous county organizations.

1-1/2 cups flour

1 cup bran

4 tablespoons sugar

1 teaspoon soda

1 teaspoon baking powder

1-1/2 teaspoon salt

1 egg

4 tablespoons molasses

1 cup sour milk

2 tablespoons fat, melted

Mix ingredients and beat 2 minutes

Half fill greased muffin pans and bake 15 minutes in moderate oven.

Rhubarb Fritters

1-1/2 cups flour

2 teaspoons baking powder

1-1/2 cups rhubarb

6 tablespoons sugar

1 egg

2-3 cup milk

Mix ingredients and beat 2 minutes

Drop tablespoon of batter into deep hot fat. Fry until well browned. Serve sprinkled with confectioner's sugar.

Mint Jelly Salad

1 package mint flavored gelatin

1-3/4 cups boiling water

2 tablespoons lemon juice

1-1/2 cup chopped cabbage

4 tablespoons olives

4 tablespoons chopped sweet

1-1/4 teaspoons salt

1/4 teaspoon pickles

Pour water over gelatin and stir until dissolved. Add lemon juice and mix well. Cool and allow to thicken. Add rest of ingredients.

Pour into mold which has been rinsed out with cold water. Set in cold place to stiffen. Unmold and serve on lettuce. Top with salad dressing or mayonnaise.

When using egg yolks only in a cake, add 1 tablespoon of cold water and beat well. This will make the yolk mixture fluffy and it will blend better with the other ingredients.

Know Your Bible To Answer These

The feature of the evening at the Young People's Conference yesterday was a baseball game—not the usual kind of a game but one which was unique in several details. Home, first, second, and third bases were appointed and the battle was between the Reds and the Blues. The winner received 4,000 points to add to their side's contest score.

Three chances were given to each side before they were counted out. Bible questions were hurled over the plate to the batter, the captain of the opposite side being the pitcher. The questions used were such as, "Where did Jesus spend His childhood days? Who wrote the book of Acts? Who was the first Christian martyr? Where were the disciples first called Christians? Who furnished Jesus' tomb? How many books are there in the Old Testament? In the New?"

There were six innings. At the end of the sixth inning the score was 1 to 0 in favor of the Reds.

Sunday evening Vesper services will be held at 6:00 P.M.

Sunday afternoon the Blues are planning to make sick calls. The boys will meet at the tabernacle following the service there. The girls will meet at the Baptist church after the Women's Meeting which will be held there.

Don't forget the Memorial services for dead members to be held tonight at the Christian church at the regular meeting time, 6:45. Mrs. Harris will help see that they are properly buried.

Honor Newlyweds At Party Here

Mr. and Mrs. Ralph Maynard, newlyweds of Sterling, were honored at a party Wednesday evening at the home of Mr. and Mrs. Lloyd Phelps of Dixon. There were twenty-five present from Dixon and Sterling. The evening was spent at cards and dancing, after which a delicious buffet luncheon was served. Mr. and Mrs. Maynard were presented with a beautiful occasional chair. Mrs. Maynard was Miss Doris Phelps before her marriage April 13, at Rock Island to Mr. Maynard.

Bible Class Has Pleasant Meeting

WE MUST TAKE OUR CHANCES.

The New Jersey gentleman who has asked President Hoover to make the local school authorities "quit bothering him" seems to be moved by an impulse that comes now and then to every parent.

This chap, as you may remember, refuses to send his children to school. He explains that on their way to school they might be hit by automobiles, or bitten by dogs; or they might fall in with wayward youngsters who would persuade them to play hooky. Failing that, attendance at school might well expose them to measles, chickenpox, whooping cough or what-not.

Consequently, since the way of a school child is encompassed about with so many perils, the New Jersey man has decided that the only safe thing is to keep his children at home all the time.

Probably there is not a parent in the land who has not, at one time or another, felt a little bit like doing the same thing. For, after all, this man is at least partly right. Going to school does involve risks. All of the horrible possibilities that this man foresees really exist, and some of them really happen to children in every town in the land.

Unfortunately, however, that is the way this world is put together. Every path is beset with perils. The mere process of growing up, school or no school, is a dangerous business. Nowhere on earth is there such a thing as perfect safety. From birth to death we move through unpredictable chances, any one of which may strike us down at any moment.

But we have to make the best of it. We have to take our chances and trust to luck, to grow case-hardened so that we can accept partial security in place of the real thing; and this is especially true if we are going to move upward in any way and take part in the race's long and toilsome climb toward the peaks.

It would be nice if we could wrap our children in cotton wool and protect them from all accidents. But it simply isn't possible. The desire for perfect safety is one desire that can never be gratified.

BULL FIGHTS VS. MOVIES.

The bull fight is popularly supposed to be Mexico's favorite diversion; but a brief article in a theatrical magazine recently indicates that the movies have pushed the bull ring into a very poor second place.

During 1930, there were sold in Mexico City and its environs some 18,500,000 admissions to places of public amusement. Of these, almost 16,000,000 were tickets to the movies; and only 160,000,000 were tickets to bull fights.

Just what all of this proves is not entirely clear; in the United States, for example, the movies outdraw baseball by a wide margin, but baseball is far from losing its popularity. It does indicate, though, that the bull fight may not be quite as great an obsession with the Mexicans as we commonly suppose.

WHERE SLASHING IS NEEDED.

The idea that tax reform is chiefly a matter that concerns the federal government is a mistake that seems peculiarly prevalent at this time. So much publicity has been given to the current attempts to reduce the federal budget that the spending proclivities of city, county and state governments tend to get overlooked.

That being the case, a few figures are worth attention. It has been reliably estimated that the total sum collected in taxes in the United States each year is between twelve and fourteen billion dollars. Of this, only more than four billions go to Uncle Sam. The rest is taken by local and state governments.

Relief from the heavy tax burden, then, is not chiefly a matter of reducing federal expenditures. Unless city, county and state officials can be induced to slash their budgets very materially, we shall continue to be over-taxed—no matter what the government at Washington does.

Farm Board Facts: No. 3—

Money Well Spent, Farm Board Says—
Defense Claims Disaster Averted By
Support Given Grain, Cotton Prices

THE FARM BOARD'S WHEAT

If milled into flour, it would provide 44 one-pound loaves of bread for every person in the world's two billion population.

By RODNEY DUTCHER

(NEA Service Writer)

Washington April 29.—There is a wide spread of opinion between the Federal Farm Board's idea that its operations have been definitely beneficial to the farmer, quite worth their cost, and the contention of its enemies that the entire Farm Board program has worked only harm.

The Senate Agriculture Committee, which is going to investigate the board, will try to give light on that point.

Some definite claims of important achievement are made, not only by the board but also by such large farmer organizations as the American Farm Bureau Federation and the National Grange. Those two organizations, however, demand that the farm board be empowered to invoke the equalization fee and the export debenture plan in order to raise domestic grain prices.

Chiefly, the arguments in favor of the board are that:

1. During its stabilization activities the farmers received from 20 to 25 cents a bushel above the world price level for wheat and that cotton growers were saved from \$80,000,000 to over \$100,000,000 by loans and by stabilization operations.

2. The board has laid the foundations in what is necessarily a very slow process for the building of a sound, stable system of cooperative marketing which may eventually "place agriculture on an equal basis with industry."

3. That, in view of the plight of 30,000,000 persons on the farms with very low purchasing power, the money spent has not been a bad investment.

The board's enemies counter that the effect of holding great hoards of wheat and cotton and the necessary liquidation of those stores causes more than enough damage to offset any past benefits and that by improper methods the board has hurt rather than helped the co-operative cause.

But even the men of the grain exchanges admit that the farmer who still had his 1930 crop late in 1930 received at least 20 cents a bushel more for it than if the board had not tried to peg the

Impressions of the Federal Farm Board's holdings of wheat and of cotton is illustrated by this graphic sketch. The board's \$150,000,000

bushels of wheat could be baked into 8,550,000,000 loaves of bread

enough to supply every person in the world with 4 1/2 loaves.

The board's 1,310,000 bales of cotton if laid end to end, would extend from the cotton fields of Dixie to the New England textile district, or would fill 26,200 freight cars, making a train 248 miles long.

price. It is alleged that much or most of the crop was by that time in the hands of the specula-

tors, but some of the farmers still had wheat.

As for the very large salaries that some officials of the board's sponsored co-operatives receive, it is argued that the co-operatives are really private concerns, privately organized and operated despite the fact that they do business with large federal loans and are hence under a certain supervision by the board.

The National Grange has decided that the board, "handicapped by a measure inadequate to meet the needs of a difficult situation, has nevertheless contributed greatly toward developing and strengthening the new cooperative movement, and so long as it is continuing to serve these ends with fidelity and efficiency, deserves the support of American agriculture and the entire public."

Nevertheless, asserting that the cooperative marketing machinery must be further extended and strengthened, it says pointedly that "more attention to building from the bottom up and to farmer control are essential for this development."

"The act has been very, very helpful to the co-operatives," says President E. A. O'Neal, president of the Farm Bureau Federation.

"It has helped to build up the morale of farmers who have been in cooperatives. We have about 12,000 of them."

"They have been discouraged

by the way the surplus was

handled, but I think the stabilization

activities in wheat and cotton

were honest endeavors to do a

job for the farmers.

If money was lost, it was lost for a

good cause."

Copyright, 1932, NEA Service, Inc.

(The Timies get a surprise in the

next story.)

The farm price situation, natur-

ally, has caused some considerable losses besides those of the board itself. But the board estimates that more than 2,000,000 farmers are now members of co-ops and says they transacted a total business of \$2,400,000,000 in the fiscal year of 1930-31. In three years, according to the board, cotton handled by cooperatives increased from 825,000 to 2,442,000 bales.

Everyone agrees that stabilization and other board activities would have done more to hold up prices if the board had been successful in its strenuous attempts to persuade farmers to reduce the crop acreage.

"Nobody but God Almighty can operate an acreage cut proposition," says Senator George W. Norris of Nebraska, sponsor of the Farm Board investigation. "A voluntary acreage cut is just a wild dream."

That fact, of course, leaves us with the old problem of what to do with the huge surpluses of wheat, cotton and other commodities which pile up and drive down prices.

The farm organizations again propose the equalization and export debenture plans but Norris points out that President Hoover has vetoed both and probably would do so again.

"The Farm Board could steady the market and prevent raids by private manipulators, but the good it could do even in that respect would be limited," Norris says. "It would be worth a lot to the producers if the market had no unnatural fluctuations."

The Farmers' Union although cooperating with the other two large farm groups in a general agricultural program wants a farm act which will regulate the market so that no product could be bought or sold below production cost.

Senator Brookhart of Iowa favors giving the Farm Board a billion dollars more to handle all exportable surpluses. Other proposals embodied in bills before Congress would refinance mortgaged farms at low interest rates or inflate currency to make it easier for farmers to pay off their debts.

Other alleged remedies undoubtedly will be urged on Congress during the Senate's investigation.

THE END

THAT a live city has a settled, definite plan of development.

Its plans are to make a bigger, better, brighter and busier city.

Prosperity and satisfying contentment come through productive industry.

The prosperity and progressiveness of a city are always reflected in the unity and cooperation of the citizens.

The man who always tries to keep the middle of the road on every proposition for the common good of the home city had better snap out of it and get right. It does not take the rest of the citizens long to get his number.

All should get together, think together and stay together in working for the home city.

Every citizen should work shoulder to shoulder in the upbuilding of the home city.

Sometimes it's a long, hard pull, but properly directed cooperation will bring the results.

IT TAKES TEAMWORK TO DO BIG THINGS.

QUEEN SHOULD BE PAIR

London, England—Queen Elizabeth, probably the largest queen in the world, rules over one of the tiniest kingdoms—Tonga, a small group of islands in the South Seas, east of the Fijis. She is six feet six inches in her bare feet, weighs 300 pounds, rules over 385 miles and has 26,896 subjects.

A fleet of air taxis has been organized by Great Britain's first women airplane taxi operators, Pauline Gower, daughter of Sir Robert Gower, and Dorothy Spicer. Pauline is an expert pilot, while Dorothy is a qualified ground engineer.

IRON RATIONS

LONDON—The British Army is now being issued an "iron ration" so all the soldiers should develop into iron men. The iron is contained in hard cake, consisting of cocoa, sugar, pea powder, beef powder, oil of lemon, and cocoa-butter. It is only six by four inches and weighs 24 hours.

The Great Wall of China was built by Chin Shish about 220 B. C. and is constructed of brick and stone. Ten years were required to build it.

FIRST METHODIST CHURCH

Gilbert Stansell, Pastor

The Service Sunday morning, 10:45, will be in charge of the pastor and he will preach. He will be supported by the fine choir coming into the service in procession, singing, and, in addition to the response in the services, it will present an anthem assisted by Dean Ball on the violin. The organist will play "Offertory in B" by Read and "Berceuse" by Delbruck.

The pastor will bring a sermon to the children in a brief sermon following the offertory. He hopes to see before him the entire junior church.

At 4:30 in the afternoon, the Intermediate League will hold its devotional meeting. Mrs. Lee Reed will sing.

At 6:15 Joseph Beech will conduct the Epworth League, his subject being "Christ and the Rural Problems of the World." There are about 10 billion people in the world living in the rural sections, or roughly, two-thirds of the human race.

The condition of our rural population in America, as bad as it is, is vastly better than the rural condition of any other nation in the world. This is to indicate that the rural problem is Christianity's greatest world problem.

Joe will be assisted in this important program by Marietta Warner, Delbert Knapp, Helen Kennedy, and Frances Stansell. Miss Ruth Leydig will sing. Fern Grimes will be at the piano and Alice Street will direct the hymn-sing.

Anna Malarkey has been elected assistant to the first vice-president and in the absence of Homer and Schildberg, at the Passion Play, will help with the services.

The pastor will be present also and have the facts of the recent Jerusalem Conference on the rural problems of the world. All young people are invited.

At 7:30 the pastor will again conduct worship, using a hymn worship service entitled "The King of Kings." He will be supported by the Children's chorus. He will

conduct the services.

WUNDERLICH'S

preach on "A Certain Deadly Sin and What We Can Do About It."

Mondays evening at 6:40 the Wesleyan Missionary Society will enjoy a picnic supper at the home of Mr. and Mrs. Frank Forman, 1501 Peoria Ave. As part of the program, Dr. Stansell will tell some of his experiences among the Mountain Whites of the Southern States.

The official board will convene at the church Monday evening at 7:30.

Tuesday evening at 7:30 the Dakota Ministerial Quartet will give a concert at the church. This famous quartet is on its way to Atlantic City, New Jersey, to sing for the General Conference during part of the month of May. Because of the concert on Tuesday evening, the Wednesday evening hour has been given over to the Missionary Societies for their Mystery Mothers and Daughters' banquet. The Queen Esther Standard Bearer girls are the daughters.

Thursday evening at 7:30 the Epworth League Young People will have their first supper program for the season at Lowell Park. Ball games, food, campfire will be the outstanding features.

TONIGHT'S FIGHT MEANS MUCH FOR BOTH SCRAPPERS

Levinsky And Walker To Meet In Decisive 10-Round Bout

Chicago, Apr. 29—(AP)—Mickey Walker and King Levinsky, a couple of boys striving toward the top of the heavyweight division, will collide in the most important fight of the indoor season tonight at the Chicago Stadium.

The bout, a ten-round, means everything to both fighters, for a chance at the championship of the world may be the victor's reward.

The engagement is particularly vital to Walker. He has passed the 30 year mark, has held two world titles, and is throwing everything into one more drive toward the peak.

Defeat for Levinsky, although he is only 21, with plenty of years ahead of him would be a dismaying setback.

The prospect of a blood and thunder battle has so steamed up the fans, that a crowd of 20,000 to 30,000 seemed certain and a sellout was not out of the question. Receipts of around \$70,000 were expected—splendid business for the Saadium Corporation and the fighters themselves. Each will receive 30 per cent of the net receipts, which in the event of a \$70,000 house, would mean about \$18,000 apiece.

LABARBA FAVORED

Detroit, Apr. 29—(AP)—The National Boxing Association featherweight tournament will reach the finals tonight after ten round bouts at Olympia.

Fidel La Barba, Los Angeles, former flyweight champion, will fight Johnny Pena, of New York, and Tommy Paul of Buffalo will take on Frankie Wallace of Cleveland in the semi-final bouts, with the winners meeting next month in a bout which the N. B. A. has promised to recognize as a contest for the title vacated by Bat Battalino.

La Barba is the favorite, although his victory over Petey Saxon of Birmingham, Ala., in a previous tournament bout was not exactly popular with the crowd.

Baseball Gossip

By GAYLE TALBOT
Associated Press Sports Writer
Seven of the eight National League clubs double-shuffled their outfields before the start of the current race, and there is reason to believe the Cincinnati Reds picked up the winning hand.

In Babe Herman, Chick Hafey, and Taylor Douthit the Reds appear to have the greatest combination in the circuit, barring possibly the holdover outfield of the Warren Brothers and Comorosky at Pittsburgh.

None of the six other contenders thus far has been able to place a trio in the field to compare in effectiveness with Dan Howley's big three. Herman and Hafey are knocking the cover off the ball, as was to be expected, and Douthit is upholding his reputation as one of the greatest fly hawks in the game, an important item in the spacious Cincinnati park.

Were Big Guns

They were the big guns yesterday as the Reds opened at Pittsburgh with a 7 to 6 victory. Herman knocked in three runs with a home run and a single. Hafey smacked a double and two singles and Douthit came up with a pair of singles. Between them, they accounted for seven of the team's twelve hits off four Pirate pitchers.

The Brooklyn Dodgers broke a five-game losing streak at the Phillips' expense, 11 to 5. Max Carey's pupils finally got their batting eyes and pounded four pitchers for 14 safeties, including home runs by Frederick and Rosenthal.

The celebrated "Dizzy" Dean made his maiden start for the St. Louis Cardinals and went out after five innings under a hail of hits as the league leading Chicago Cubs won another 12 to 7. Lance Richbourg, substitute outfielder, drove in four of the Cubs' runs with a double and two singles and scored twice.

Cold weather held up the Giants' opener at Boston.

MACKS LOSS AGAIN
In the American League, the Washington Senators inflicted more casualties on Connie Mack's pitching staff in scoring a 10 to 4 triumph. Rube Walberg was taken for 11 hits and seven runs before he retired in the seventh, and Deshong had little better luck.

The Yankees fell on Danny MacFayden, ace of the Boston staff, for 10 hits to take the opener with the Red Sox, 5 to 1.

Lefty Gomez pitched a brilliant game, allowing only three singles to achieve his third straight victory.

Cleveland ran its winning streak to five straight with an 11 to 2 decision over the luckless Chicago White Sox. Earl Averill featured the Indians' assault on the three Sox hurlers with a home run and a single.

Detroit's prize rookie, Whitlow Wyatt, met his first reverse when the St. Louis Browns jumped him for seven hits and five runs in the first four innings and then held on behind George Blaeholder to win, 5 to 4.

Chicago, Apr. 29—(AP)—Mickey Walker and King Levinsky, a couple of boys striving toward the top of the heavyweight division, will collide in the most important fight of the indoor season tonight at the Chicago Stadium.

The bout, a ten-round, means everything to both fighters, for a chance at the championship of the world may be the victor's reward.

The engagement is particularly vital to Walker. He has passed the 30 year mark, has held two world titles, and is throwing everything into one more drive toward the peak.

Defeat for Levinsky, although he is only 21, with plenty of years ahead of him would be a dismaying setback.

The prospect of a blood and thunder battle has so steamed up the fans, that a crowd of 20,000 to 30,000 seemed certain and a sellout was not out of the question. Receipts of around \$70,000 were expected—splendid business for the Saadium Corporation and the fighters themselves. Each will receive 30 per cent of the net receipts, which in the event of a \$70,000 house, would mean about \$18,000 apiece.

LABARBA FAVORED

Detroit, Apr. 29—(AP)—The National Boxing Association featherweight tournament will reach the finals tonight after ten round bouts at Olympia.

Fidel La Barba, Los Angeles, former flyweight champion, will fight Johnny Pena, of New York, and Tommy Paul of Buffalo will take on Frankie Wallace of Cleveland in the semi-final bouts, with the winners meeting next month in a bout which the N. B. A. has promised to recognize as a contest for the title vacated by Bat Battalino.

La Barba is the favorite, although his victory over Petey Saxon of Birmingham, Ala., in a previous tournament bout was not exactly popular with the crowd.

Cleveland, Apr. 29—(AP)—The American Olympic team faces a financial crisis which, if not relieved by the campaign for funds between now and July, will result in sharp reduction of the athletic forces representing this country in the international sports at Los Angeles.

In connection with his call for a special meeting of the American Olympic Committee here this Sunday to consider this critical situation, Avery Brundage, Chicago, president of the committee as well as president of the National Amateur Athletic Union, told the Associated Press today:

"This meeting has been called to discuss ways and means of cutting down the United States team, depending on the outcome of our campaign for money. In any event we are faced with the sharp necessity for economy."

"My associates, I am sure, agree with me that we must not prepare to spend money that we will not collect."

"If it means that we cannot raise enough money to send more than half a dozen athletes to Los Angeles, why we will not send more than a dozen."

To date approximately \$40,000 has been obtained toward the aggregate 1932 American Olympic fund of \$350,000, fixed for the handling of a full delegation in all sports. Most of this, to the extent of upwards of \$30,000, is already involved as the Olympic committee's share of team expenses.

At DRAKE RELAYS

Des Moines, Ia., April 29—(AP)—Olympic prospects from 14 states crowded into the Drake Stadium today to open the 23rd annual Drake relays.

Rainy weather was in prospect as the two day meet opened, but fairly warm temperatures and a firm track served to lessen the handicap of dampness.

CRUSADER FOR INDEPENDENTS OUTLINED PLAN

Enthusiastic Meeting Of Independent Business Men Held

The Main Street Crusader system was outlined by Winfield H. Caslow of Chicago at a meeting attended by about 200 merchants and business men of Dixon at noon Thursday. The speaker, who has been often heard over radio station WJJD Chicago, during the past 60 days, where he fills two broadcast periods daily, held the attention of his large crowd of eager listeners for more than an hour and a half. During this time he maintained a rapid fire of heated arguments concerning local business conditions. The speaker has made an intensive study of the subject and is greatly in demand throughout the central west where his organization is now functioning.

"Business today is not a subject but an issue," the speaker said in his opening, "it is not a theory, but a matter of basic principles which involve the Constitution of the United States. Business needs to be defined and businessmen need to define their business."

Giving his definition of the word business, the speaker continued:

Defines "Business"

"Business is an exchange of that which I have or do for that which I want or need, that is my definition of the word business. Business is selfish, it is personal, and it is vital. It cannot be carried on unless there are two or more parties to the transaction. The customer outside of the counter is just as much a business person as the merchant behind the counter. If deflation occurs, both are affected. Business is 100 percent mutual. Life, liberty and the pursuit of happiness are the objectives of business. You business men of Dixon have emphasized the fact that you are in business and not that you are independent merchants. The merged chain system of business is absolutely un-American. Unemployment does not make for prosperity unless the workers realize a profit. Profit makes prosperity."

"This is my challenge to the chain system of business — their profits are sent out of the town in which they do business, while the profits of these independent merchant remains at home. Democracy has never been established in business which has been permitted to run wild."

The speaker compared the chain merger system to the trusts which

have been legislated against. He compared the trusts to the horse and buggy stage. The present depression, he stated, represented a traffic jam where the big cars had crowded the little cars to the curb, while the big trucks were driving on the sidewalks. In his comparison of the two, he classified the chain system as being a case of the survival of the fittest. The elimination of the middle man, he said, was the greatest boast of the chain system, which was followed by the term, efficiency.

People Are Bosses

"The present depression is a consequence of what people thought they wanted. The people are boss and business is going to do what the people want. Private monopoly puts the customer out of business. Organization has become an epidemic. A monopoly cannot be established under the independent system. Organization is out of the picture and leadership is in demand. In politics we find that bosses are being produced instead of leaders. Organization and not organization is the way out of the present situation," he said in conclusion.

The speaker was introduced by George Prescott of this city. The dining room at the Hotel Dixon was filled to capacity, every seat being taken and many who came later remained standing while the speaker presented his address. It was the best, most enthusiastic meeting of its kind that has ever been held in Dixon and was attended by many merchants from Sterling and other surrounding towns.

Amboy Troop Gets Efficiency Award

The Boy Scout trophy, known as the Vice President's cup, goes to Troop No. 37 of Amboy or which Arthur Tuttle is the Scoutmaster. Lloyd Emmert, Scoutmaster of Troop No. 89 of Dixon deserves honorable mention because his troop ran a very close second.

John G. Ralston of this city, vice president of the Black Hawk area council, is giving the cup to the Lee county troops and the award is made each three months for troop efficiency. It will be inscribed for the troop winning it for the first quarter and will be presented to them soon at a public meeting.

The winning troop is privileged to keep the cup in their meeting quarters until such a time as it is won by another troop. Local Scouts are hoping for the bringing of the trophy to Dixon this summer.

Lee county Scouts are preparing for a county Scout circus to be held at the Lee County fair grounds in Amboy within a few weeks, the date to be arranged at a meeting of the Scout leaders round table at Grand Detour on the evening of May 14.

Cancer was given as the cause of 2,787 deaths in Iowa in 1931.

CANTRELL RAPS INFIDELITY IN CHURCH AND OUT

Pleads For Return To The Faith Of Fathers, Righteousness

Religion Fundamental

Evangelist Grady Cantrell made an impassioned plea in last night's service at the tabernacle on West Boyd Street, for a return to the old fashioned faith and virtues of the fathers. He pointed out some of the dangerous tendencies of the times and warned against the course we are pursuing in business and education.

"Our civilization has not evolved by the blood of monkeys, but by the blood of Jesus Christ. Believe that you descended from a monkey, if you want to. Then you should pray, 'Our Father, who art in the coconut tree' instead of 'Our Father, who art in Heaven.' Not for me! Ten years ago something not of this world touched this old hunk of mud and changed him from a gambling, drinking and lying fool into a happy child of God. Can you explain it by evolution? No!"

"You may be like an old turtle that draws his head into his shell and refuses to look around. You may be like the ostrich that sticks his head in the sand. That does not hide them. To refuse to face the issue does not eliminate it. The time has come when if the church people and business men do not wake up and do something to counteract this wave of Godlessness in our land there will be a terrible destruction."

"With all your boasted science you are not even able to avoid a depression nor to explain it, nor get out of it. It takes something else besides smartness and money. Only Christian nations advance. We have advanced far, but we are no smarter than folks were five thousand years ago. That is we are not born smarter. We have the accumulated experience to learn from, but we were not born any smarter than the ancients. In all its advancement civilization has had few leaders."

"All our boasted progress in invention has come from discovering what God had already done in his processes in nature. For illustration, take the human body. We have learned a lot from it. The ball-and-socket joint applied in our modern machinery, learned from the joints of the human body. The valve system of our gas engines, patterned from the valves of the human heart. The sewer system of the body, the nervous system, copied by the telephone and telegraph systems, the picture

of earth, didn't they. Who put it there? How did it come that the coal and oil are hidden deep in the earth? Why, if God had put the oil on the surface in great lakes, we would have burned it up long ago because it stinks and makes our clothes all greasy."

"Yes, I believe in a development. But most of the theories taught by the would-be wise is rot. Science can never get away from design in nature. We are all here because God designed it. He is back of all."

Religion Fundamental

"The fool hath said in his heart there is no God." Only the fool says that. God is everywhere in His world. We cannot see him but we can experiment and find him. You cannot see the electricity slipping through those wires up there, but you can experiment and find it there alright."

"He manifested Himself to the world in Jesus Christ, His son. Do you wish to see God? Look at Jesus. He said, 'He that hath seen Me hath seen the Father.' There is no explanation of the world without him. Believing in him reconciles all and gives us the answer our hearts crave. Through Jesus Christ, life, the world, the universe of nature and men become beautiful and one harmonious arrangement of a divine mind. Rest and peace awaits the soul that accepts Him."

Closing, the evangelist made an earnest appeal for those who wished to accept Christ as Savior to come with the church members who came to the Upper Room for prayer and consecration. About forty people came down the aisle in response to the appeal.

Special Attraction

A special attraction of last night's service was the drumming of little Jimmy Rice. Assisted at the pianos by his mother and Dick Choate, Jimmie treated the great audience to a fine exhibition of skill as a drummer boy. On the last number Dick Cheate played the xylophone. Jimmie is booked to appear again on Wednesday and Thursday evening of next week.

There was a large delegation present from East Grove and one from Sterling. The attendance was the largest of any Thursday evening thus far. The big tabernacle has been filled each evening.

On Sunday night Rev. Cantrell

will preach upon "The Deity of Jesus." His sermon tonight will be upon, "The Judgment." Ray Harris will sing and Dick Choate will render a special instrumental number.

PALMYRA

PALMYRA
By Mrs. I. J. Kendall
Palmyra—Funeral services for the infant son of Mr. and Mrs. John Harms who passed away Thursday evening were held at the home Saturday afternoon with burial in the Sterling cemetery. Rev. Harry Shaffer of the Rock Falls Christian church conducted the service.

Chauncey Durant left Saturday evening for Rock Island.

Mrs. Earl Harms is quite ill from the effects of a bad tooth. Miss Marion Buzzard is doing the work during Mrs. Harms' illness.

Mr. and Mrs. I. J. Kendall were Ashton visitors Sunday.

Robert, son of Mr. and Mrs. John Lawrence of Prairievile, is confined to his home suffering with measles. Miss Hazel Rhodes and Leo Rintoul of Dixon, Ted Rhodes and Mrs. I. J. Kendall and son Howard, were callers at the Sam Rhodes home Tuesday evening.

Decommissioning of the light-house tender "Holly" after 50 years' service removed that last side-wheel vessel from the coast service.

Automatic dimming of automobile headlight at the approach of cars is provided by a mechanism developed by a Parisian.

RESEARCH REVEALS
ALL-BRAN RICH IN
HEALTH-ELEMENTS

Helps Correct Constipation with "Bulk" and Vitamin B; Also Has Iron

Recent scientific research shows that Kellogg's ALL-BRAN contains two things needed to overcome temporary and recurring constipation. It has "bulk" to exercise the intestines, and Vitamin B to tone the intestinal tract.

These two important food-elements promote regular habits, and help do away with the headaches, loss of appetite and energy, so often the result of constipation.

The "bulk" in ALL-BRAN is mild in action—much like that of lettuce. Inside the body, it forms a soft mass which gently clears the intestines of wastes. Special cooking processes make ALL-BRAN finer, softer, more palatable.

Isn't this pleasant "cereal way" far more healthful than using pills and drugs—so often habit-forming?

Just eat two tablespoonfuls of Kellogg's daily—enough for most types of constipation. If your intestinal trouble is not relieved this way, see your doctor.

Besides, ALL-BRAN brings your body twice as much blood-building iron as an equal amount by weight of beef liver.

Equally tasty as a cereal with milk or cream, or used in cooking. Recipes on the red-and-green package. Sold by all grocers. Made by Kellogg in Battle Creek.

RADIO RIALTO

FROM SHIP AT SEA

When the Leviathan is over 1500 miles at sea this evening on her first transatlantic crossing of the year, a radio program, featuring the ship's dance orchestra and many famous personalities of the day, who'll be aboard, will be broadcast to New York and there re-broadcast from station WEAF and a nationwide NBC network.

The crossing will be the first the Leviathan has made under new management and also its first crossing with Bremen as its European terminus. The broadcast, which will be heard from 10:30 to 11:00 P.M., Eastern Daylight Saving Time, will emanate from the liner's famous "Club Leviathan" and will bring listeners the music of Harry Reser's orchestra, Harry Acton, veteran ship news reporter of the New York American, will act as master of ceremonies and will enliven the event with his colorful descriptions of the boat and its many famous passengers.

Among the well known personalities who have booked passage on this eventful crossing and will be invited to step before the microphone are General John J. Pershing, Mrs. David Bruce, (daughter of Andrew Mellon) who is going to London to be her Ambassador father's hostess at the Court of St. James; Karl Bickel, president of the United Press Associations; Helen Jacobs (famous English tennis champion); Countess Eleanor Von Schlieben (well known opera star); Princess Sofia Katzhoff, Prince Darbohoff and Professor Leo Weiner.
